4. Future meeting date

- a. Our next meeting is Monday, February 10th at 10:00 AM in the second floor training room at Ridgehaven Ct.

5. Committee Topics of Interest

- a. Discussed combining CRC and CBC committees into 1. Ali Fattah needs to step down as CBC Co-committee chair and Kurt Culver is willing to co-chair a joint committee. The members agree this will work well as most items are related to both codes and many questions come up regarding the differences between the two codes.
- b. Reviewed our existing agenda and agreed to strike the following topics for the time being: Wall bracing and 2015 Code Changes.
- c. Decks, gazebos, and other detached structures – The committee would like to see this move forward. The goal is to create an Information Bulletin covering when a permit is required and proper detailing. Understanding that many people do not pursue a permit, we'd like to distribute the IB to local suppliers to share with their customers to get the information out and build good will.
- d. Corrosion resistant fasteners –The committee needs to research this further to see if it's still unclear in the new code. Karyn will bring a draft to next meeting.
- e. Cutting and notching of framing members (compare recommendations by CRC and CBC of sawn lumber and Engineered Wood Products) – Karyn is tasked with bringing a draft of Engineered Wood cutting recs in combination with sawn lumber.
- f. Significant changes to the 2013 CRC – no progress made
- g. Impacts of other codes on CRC (CBC, Energy Code, CALGreen, etc) – nothing new noted this month
- h. 2015 IRC Code Changes – secondary priority for now, Ali Fattah has been following these
