

2016 California Residential Code (CRC) Essentials Seminar

Instructor: **Paul Melby**

May 3, 2018
8am – 4pm PST

City of Oceanside Council Chambers
300 N. Coast Hwy. Oceanside, CA 92054

\$165 (member) / **\$198** (non-member)

Learn how to identify the critical concepts of the 2016 California Residential Code regarding the applicable designs of residential building requirements at this comprehensive seminar.

Participants who complete this seminar will be able to:

- Explain the fundamental provisions of the 2016 CRC
- Identify the intent of the CRC
- Describe the common provisions applicable to design
- Comprehend the use of passive and active fire protection
- Identify how life safety and egress issues are addressed in design and construction
- Identify how the health and safety of occupants is safeguarded with weather protection and interior environment controls
