

ICC Energy CALGreen committee
Subject: April 2021 Meeting
Date: Wednesday, 4/7/21, 9 am

Minutes

1 Introductions

Visitor/new Introductions- All new- 7 attendees

2. Best time for next meeting- Wednesday morning good. Conflict with P&M mtg. Set to 2nd Wednesday, next meeting May 12 9am

Is anyone willing to be the Secretary?

3. Distribute and discuss relevant documents:

a. CEC updates and documents

Blueprint Jan- Mar- Clarifications re ADUs
updates- 2022 code cycle changes

b. CALGreen updates and documents

Questions and Answers- mid code cycle changes coming

Discussions-

a. Why are IECC infiltration requirements not part of T-24 Part 6? Research for next time

b. Electrification ordinances:

Luke Morton provided these resources:

- CPUC: Utility costs and Affordability (focused more on electricity rates)
- The Challenge of Retail Gas in California's Low-Carbon Future

4. Best question for ICC general meeting- nexttime

5. Questions for discussion next meeting:

Are Sellers required to inform buyers that a permit is required when they are replacing a water heater, particularly instant gas types. Why are we asking for high demand gas lines to be added to a project, when those water heater types may never be installed.

6. Future mtg plans and objectives for the committee- Expert at each meeting to answer questions

Next Meeting- May 12, 9-10 am

Russ King from CalCERTS HERS registry will present at 9:30 re PSR (project status reports) and answer HERS questions.
